Facts about NCAA sports

Does the NCAA award athletics scholarships?

Individual schools award athletics scholarships. Divisions I and II schools provide \$2.7 billion in athletics scholarships annually to more than 150,000 student-athletes. Division III schools, with more than 180,000 student-athletes, do not offer athletically related financial aid, but most student-athletes receive some form of academic grant or need-based scholarship.

Do many high school athletes earn athletics scholarships?

Very few, in fact. About 2 percent of high school athletes are awarded some form of athletics scholarship to compete in college.

Do NCAA student-athletes have difficulty meeting graduation requirements with the time demands of their sport? While competing in college does require strong time-management skills and some thoughtful planning with academic advisors, on average NCAA student-athletes graduate at a higher rate than the general student body.

Do many NCAA student-athletes go on to play professionally?

Fewer than 2 percent of NCAA student-athletes go on to be professional athletes. In reality, most student-athletes depend on academics to prepare them for life after college. Education is important. There are nearly half a million NCAA student-athletes, and most of them will go pro in something other than sports.
